

Our GPHS Parent Organization

Our parent organization supports our students and staff in a myriad of educational activities and experiences throughout the school year. Their sponsorship is an integral part of making our school a success, providing financial and professional support through their volunteer efforts. Chaperoning dances, assisting with supervision at lunches, providing staff appreciation activities and sponsoring guest speakers is just a small part of their ongoing contributions to our school. We would like to invite all of our parents to participate in the meetings and to become an active participant in our school activities.
